

Quercetin is a bioflavonoid commonly found in citrus fruits. A clinical study at UCLA showed **MRM's** quercetin to have beneficial effects on prostate health.** Bioflavonoids, such as quercetin, have been shown to be poorly absorbed. **MRM** has added a specific phospholipid to increase absorption and ultimately, its benefits to the prostate.** In vitro research has also demonstrated quercetin's ability to act as a powerful antioxidant.**

- Powerful Antioxidant**
- Supports Prostate & Kidney Health**
- Supports Immune & Cardiovascular Health**
