Lutein is an orange-red carotenoid pigment produced by plants and is present in the diet in colorful fruits and vegetables. In the body, Lutein is one of the predominant pigments concentrated in the macula, a specialized area of the eye that is responsible for central vision. In addition, it is known to be deposited in the skin. Lutein's functional role in these vulnerable tissues is to protect against sunlight-induced free radical production.* This product is naturally derived from marigold flowers, which possess a broad spectrum of carotenoids, including Zeaxanthin.

SUGGESTED USAGE: As a dietary supplement, take 1 capsule daily with a meal.

Double Strength Lutein

SUPPORTS EYE HEALTH

**20 mg of Free Lutein
from Lutein Esters**

- Promotes Macular Health
- Free Radical Protection*

90 Veg Capsules

A Dietary Supplement
Vegetarian/Vegan
