WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center right away.

Folic acid alone is improper therapy in the treatment of pernicious anemia and other megaloblastic anemias where vitamin B-12 is deficient.

PRECAUTIONS: Folic acid in doses above 1.0 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations progress.

INDICATIONS AND USAGE: TriCare Prenatal™ Compleat™ Tablets are indicated to provide vitamins and mineral supplementation throughout pregnancy and during the postnatal period for both the lactating and non-lactating mother. It is also useful for improving nutritional status prior to conception.

CONTRAINDICATIONS: This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

NOTICE: Contact with moisture may produce surface discoloration or erosion of the tablet.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

DOSAGE AND ADMINISTRATION: One tablet daily or as directed by a physician.

HOW SUPPLIED: TriCare Prenatal™ Multivitamin/Mineral Tablets for oral administration are supplied as light blue, film coated tablets, debossed MP 101 with a partial break through the tablets on one side in a child-resistant plastic bottle of 30 tablets. (NDC 67112-701-30)
