Prenatal Vitamin Caplet and
250 mg DHA Softgel

Dietary Supplement
Contains Stool Softener

30-Day Supply

PharmaPureRx

30 Caplets and 30 Softgels

INDICATIONS: PNV OB+DHA is a prescription regimen of prenatal multivitamin, multi-mineral and Omega-3 fatty acid supplements indicated for use in improving the nutritional status of women throughout pregnancy and in the post-natal period for both lactating and non-lactating mothers. PNV OB+DHA is also useful in improving the nutritional status prior to conception.

DOSAGE AND ADMINISTRATION: Before, during and after pregnancy, one caplet and one softgel taken by mouth daily, or as directed by a physician. The caplet and softgel may be taken together or at different times of the day. Caution should be exercised to ensure that the prescribed dose of DHA does not exceed 1 gram (1,000 mg) per day.

Consult package insert for full prescribing information.
