

Key Features and Benefits:

- Uniquely Comprehensive Multivitamin/Mineral Mega Complex to Support Men's Health and Wellness.*
- Delivers 24 Essential Vitamins & Minerals including 1,600 IU Vitamin D3.
- The June 2002 issue of the Journal of the American Medical Association (JAMA) reports that: "Most people do not consume an optimal amount of all vitamins by diet alone. Pending strong evidence of effectiveness from randomized trials, it appears prudent for all adults to take vitamin supplements."
- Provides a full-spectrum, complete and high-potency vitamin, mineral and trace mineral complex.
- Delivers high potency antioxidants including vitamin C, vitamin E, Copper, Selenium, Beta-carotene and Alpha Lipoic Acid.
- Provides major, trace and ultra-trace minerals often difficult to obtain through diet. These minerals are delivered in special amino acid chelate forms for optimal bioavailability and assimilation.
- Alpha Lipoic Acid is uniquely soluble in both water and fat and considered by scientists to be a "Universal Antioxidant". Because of its unique solubility, it provides protection at hard to reach tissues within the body.
- The Organic PhytoBalance Blend provides a comprehensive array of the most healthy and protective organic berry ingredients. Richly colored berries including Maqui Berry, Blackberry, Acerola Berry, Blueberry, Strawberry, Raspberry, Goli Berry, Cranberry and Yumberry delivers powerful protective antioxidant properties to combat daily oxidative stress.[†]
- Enhanced with a Branched-Chain Amino Acid Blend (L-Leucine, L-Valine and L-Isoleucine) to support anti-catabolic, endurance and recovery.[‡]

- Lutein, Zeaxanthin, Lycopene and Astaxanthin are unique and powerful carotenoids to protect and support the health of skin, eyes, joints, prostate, immune system and cardiovascular system.[†]
- Choline has many biochemical functions and is essential for the synthesis of cell membranes. Highly concentrated in the brain, choline functions in the synthesis of phosphatidylcholine and the neurotransmitter acetylcholine.
- Inositol is an essential component of cell membrane phospholipids and is highly concentrated in the brain and liver providing numerous important biochemical and physiological functions.
- May be taken throughout the day to individualize delivery and absorption times, coinciding with periods in which additional vitamins and minerals are needed, such as immediately following exercise.
- Easy-to-swallow capsules that quickly dissolve for maximal nutrient assimilation.

STORE IN A COOL, DRY PLACE AWAY FROM MOISTURE, SUNLIGHT AND EXCESS HEAT. ALWAYS KEEP TIGHTLY SEALED IN THE ORIGINAL CONTAINER.
