

Super Concentrated Series

The Super Concentrated Series are the most powerful concentrated performance products available – guaranteed. Unlike other companies that mislead you with the promise of results based solely on animal research or underdose their ingredients and hide them in proprietary blends, the Super Concentrated Series delivers premium-quality ingredients in precise and fully disclosed, clinically researched doses. No proprietary blends. No fillers. No hype. No exceptions.

The Most Powerful Performance & Testosterone Stimulant Ever.▲ Guaranteed.

Unlike other testosterone-boosting products that use misleading animal research and have little to no human research to support their claims, AlphaTest™ is the only super-concentrated testosterone stimulant formulated with key ingredients supported by four separate human clinical studies. AlphaTest™ contains key ingredients shown in human research to deliver these key benefits.▲

Increase Overall Testosterone Levels▲

A unique and patented combination of saw palmetto and astaxanthin (Mytosterone™) has been added at an amount shown in human research to increase testosterone to near maximum physiological levels in just 14 days.▲

Angwafor et al., 2008. *Journal of the Int Society of Sports Nutrition*. 5:12.

Maintain Peak Testosterone to Cortisol Ratio & Improve Performance▲

AlphaTest™ is the first and only performance and testosterone stimulant to contain the effective doses of *Rhodiola crenulata* and *Ginkgo biloba*, which, when taken by subjects in a 7-week human clinical study, helped to maintain peak testosterone to cortisol ratio after an intense training regimen. The treatment group also greatly enhanced their performance as measured by a significant increase in a marker of training capacity.▲

Zhang et al., 2009. *Chin Journal of Integrative Medicine*. 15(3):177-183.

Elevate Free (Active) Testosterone▲

AlphaTest™ is formulated with boron citrate, a powerful agent that supplies a precise dose of boron shown in human clinical research on men to increase free testosterone in just seven days. Free testosterone is the most active form of testosterone and is critical to initiating the musclebuilding process.▲

Naghii et al., 2010. *Journal of Trace Elem in Medicine and Biology*. 25:54-58.

Support Testosterone Levels▲

AlphaTest™ is scientifically engineered to help support normal zinc levels. Adequate zinc levels help maintain optimal testosterone production within the normal healthy range.▲

Prasad et al., 1996. *Nutrition*. 12(5):344-8.

AlphaTest™ is manufactured according to GMP standards, as is required for all Dietary Supplements.
