Rapid-Release Formula Floods Your System with Nitric Oxide Boosting Arginine[▲]

What you're holding in your hands is an advanced, rapid-release nitric oxide system. A nitric oxide formula designed to deliver extreme, vascular hyper-expansion and powerful muscle pumps. In fact, when combined with your intense training program, you'll experience overwhelming, muscle-swelling pumps after just your very first dose. Introducing naNO^{X9}® *Hardcore Pro Series*™ – a nitric oxide generating powerhouse![▲]

Designed for Powerful Pumps, Skin-Tight Fullness and Extreme Hardness[▲]

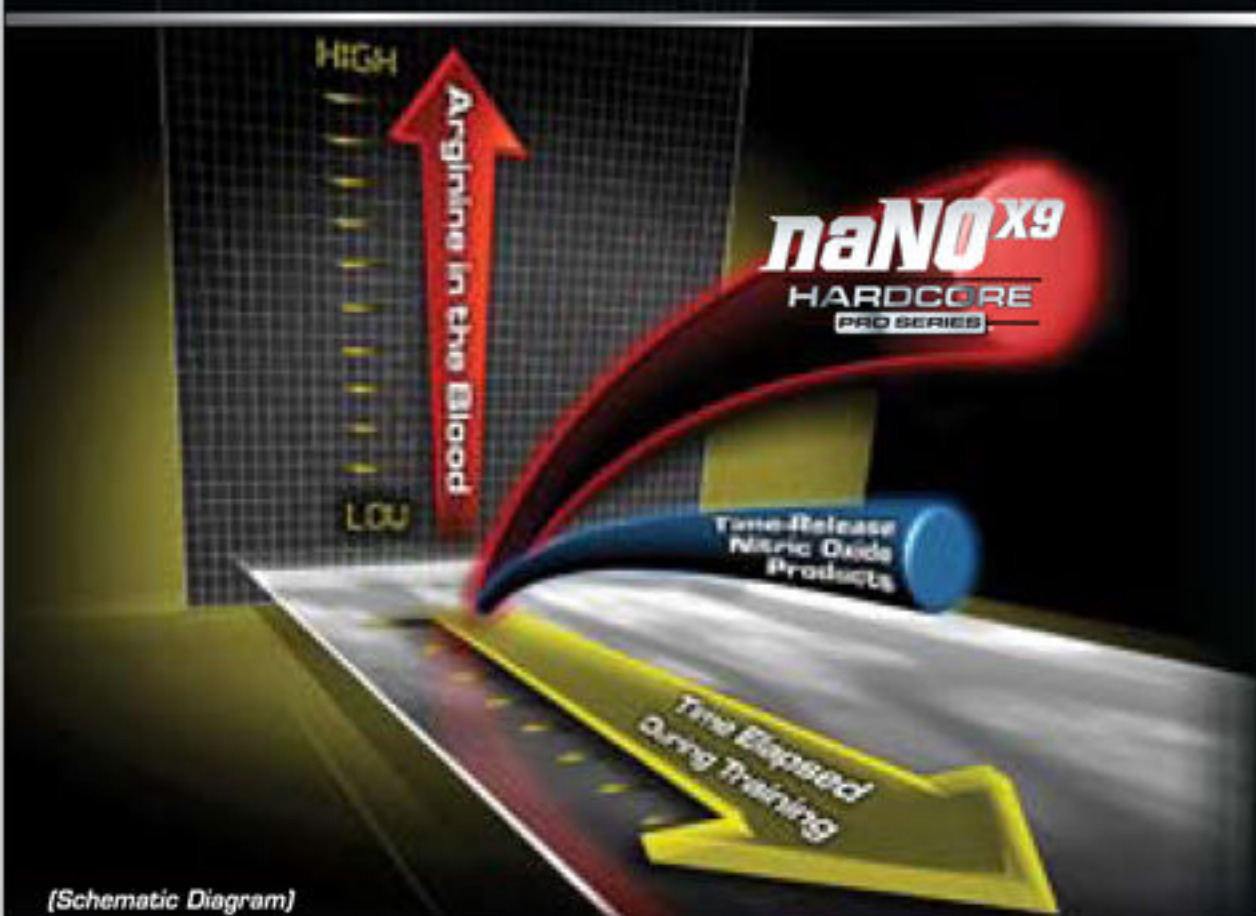

Nearly half a decade after taking the supplement industry by storm with the global launch of naNO^{X9}®, Team MuscleTech™ researchers, who bring you America's #1 selling sports supplement brand, introduce naNO^{X9}® *Hardcore Pro Series*™. It's engineered to meet the needs of a hard-training athlete, like you, and trigger rapid vasodilation of blood vessels and massive muscle pumps. [▲]

¹ Plus, it features Rapid-Release Micro-Dispersion Technology™ so that each dose of this advanced formula initiates compound diffusion (caplet breakdown) in mere seconds. Initiating compound diffusion in mere seconds ultimately leads to complete breakdown of the caplet, *ultra-fast*.

Get Results After Just One Dose

naNO^{X9}® *Hardcore Pro Series*™ is designed for overpowering, extreme muscle pumps plus increased muscle hardness and fullness after your very first dose! This could very well be the most intense muscle pump you ever experience.[▲] Add naNO^{X9}® *Hardcore Pro Series*™ to your hardcore training program, today!

naNO^{X9}® *Hardcore Pro Series*™ vs. Time-Release N.O. Products

naNO^{X9}® *Hardcore Pro Series*™ is engineered to rapidly initiate dispersion of its advanced formula so that more arginine is available in the blood when you need it most![▲]

Supplement Facts

Serving Size 3 Caplets
Servings Per Container 60

Amount Per Serving	% Daily Value
naNO ^{X9} ® <i>Hardcore Pro Series</i> ™ Proprietary Blend	3,062 mg †
ArgiPro ^{X9} ™	†
L-arginine	†
L-arginine alpha-ketoglutarate	†
L-arginine pyroglutamate	†
L-arginine HCl	†
VasoAMP™	†
L-citrulline	†
L-carnosine (beta-alanine and histidine dipeptide)	†
Asian ginseng extract (as <i>Panax ginseng</i>) (root)	†
Co-enzyme Q10	†

† Percent Daily Value not established.

OTHER INGREDIENTS: MICROCRYSTALLINE CELLULOSE, HYDROXYPROPYLCELLULOSE, COATING (POLYETHYLENE GLYCOL, FD&C RED NO. 40, TALC, TITANIUM DIOXIDE, FD&C BLUE NO. 2), CARBOXYMETHYLCELLULOSE, CROSPVIDONE, VEGETABLE STEARINE, MAGNESIUM STEARATE, SILICA, ACESULFAME-POTASSIUM.

DIRECTIONS: Beginners should start with 1 serving (3 caplets) twice a day with a glass of water. Take your first serving in the morning. On workout days, take your second serving 30 to 45 minutes prior to your workout. Do not exceed 2 servings in a 24-hour period. Consume 10 glasses of water daily for general good health. Read the entire label before use and follow directions provided.

Intermediate and Advanced Bodybuilder's Dosage Protocol	
Up to 200 Pounds	Over 200 Pounds
1 serving (4 caplets)	1 serving (5 caplets)
Twice Daily	Twice Daily

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. For use by healthy individuals only. Do not use if you have had a myocardial infarction (heart attack). Discontinue use and consult a medical doctor if you experience unusual symptoms. Consult a medical doctor before use if you have been treated for, or diagnosed with, or have a family history of any medical condition, or if you are using any prescription or over-the-counter drug(s), including blood thinners. Consult a medical doctor before starting any diet or exercise program. Do not exceed recommended serving. Improper use of this product will not improve results and is not advised. Use only as directed. Do not take while fasting. Do not refrigerate. **Do not use if packaging has been tampered with.** Store in a cool, dry place (60°F to 80°F). **KEEP OUT OF REACH OF CHILDREN.**

4-Stage Nitric Oxide Hyper-Activation

Here's how naNO^{X9}® *Hardcore Pro Series*™ quickly initiates a series of physiological reactions to trigger powerful vasodilation![▲]

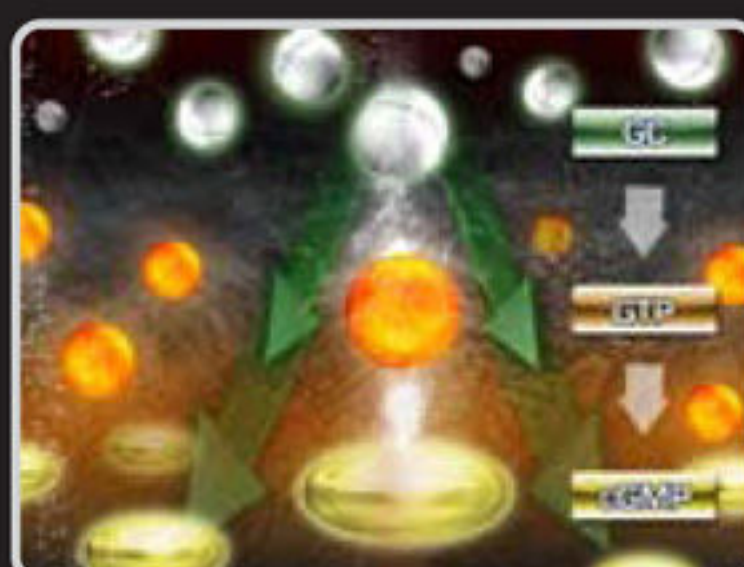

Stage 1: Rapid Increases in Nitric Oxide (N.O.) Production[▲]

The dose of arginine powering naNO^{X9}® *Hardcore Pro Series*™ gets absorbed into the bloodstream, where it enters the endothelial cells and gets converted to nitric oxide via the process of nitric oxide synthase.

Stage 2: Activation of Key Signaling Enzyme

Newly formed N.O. molecules rapidly diffuse from the endothelium into the smooth muscle cells that make up the blood vessel, where they bind to and activate the enzyme guanylyl cyclase (GC).[▲]

Stage 3: Vascular Smooth Muscle Relaxation

The enzyme GC converts guanosine triphosphate (GTP) to cyclic guanosine monophosphate (cGMP), which serves as a messenger for many important cellular functions, such as signaling smooth muscle relaxation.

Stage 4: Enhanced Vasodilation

As a result, contractile reactions within the smooth muscle cells of the blood vessels are decreased, enhancing vasodilation.[▲]
