

CREATINE DECANATE

The New Bodybuilding Standard In Creatine Supplementation!*

CREATINE DECANATE's scientifically advanced purified, potent and most clinically studied form of creatine with DecaDrive delivery has set a new standard in creatine supplementation. Creatine's proven muscle building and strength benefits have made it one of bodybuilding's top sports supplements. Now, MuscleMeds scientists have invented a new way to make creatine even better with the creation of **CREATINE DECANATE** with DecaDrive.*

Creatine: The RAW Science!*

In the development of **CREATINE DECANATE**, MuscleMeds scientists conducted an extensive clinical review on the various forms of creatine for building muscle, strength and athletic performance to determine which form really works best. From a pure scientific research standpoint, Creatine Monohydrate was shown to have the greatest number of scientific efficacy studies on athletes. The tremendous volume of scientific research is incredibly clear – purified creatine monohydrate has been shown to deliver a potent dose of muscle building and power generating ATP to muscle fibers, with the highest degree of clinical evidence. Therefore, MuscleMeds researchers decided to utilize creatine monohydrate in combination with our advanced pharmaceutical DecaDrive Technology delivery in the creation of **CREATINE DECANATE**.*

DecaDrive Shifts You Into Anabolic Overdrive!*

CREATINE DECANATE provides a potent dose of purified, micronized creatine via the scientifically advanced DecaDrive Technology, which is designed to promote faster absorption and utilization of creatine. DecaDrive Technology utilizes the pharmaceutical delivery compounds PEG and Decanoate to help promote increased absorption and uptake in the intestines. This powerful infusion of **CREATINE DECANATE** delivers maximum anabolic muscle building, increased muscular power, reduced soreness and improved recovery.*

MuscleMeds™
PERFORMANCE TECHNOLOGIES

CREATINE DECANATE

PHARMACEUTICAL DELIVERY

DecaDrive™ Technology for Enhanced Absorption*

PROFESSIONAL STRENGTH MICRONIZED CREATINE

Increases Muscle Size & Strength*

Boosts ATP & Energy Output During Exercise*

Speeds Recovery & Reduces Muscle Soreness*

Dietary Supplement

UNFLAVORED

Net Wt. 10.58 oz. (300g)

DIRECTIONS: Mix one level scoop of **CREATINE DECANATE** with 8 to 10 oz. of water, juice or your favorite sports drink. Take 1 to 2 times daily.

Supplement Facts

Serving Size: 1 Level Scoop (5 g)

Servings Per Container: 60

Amount Per Serving

Creatine Decanate™ (Creatine monohydrate, PEG 8000, PEG 3350 and decanoic acid)	5 g**
