

GLUTAMINE DECANATE

The New Bodybuilding Standard In Glutamine Supplementation!*

GLUTAMINE DECANATE's scientifically advanced purified and potent Glutamine with DecaDrive delivery has set a new standard in amino acid supplementation. Through the development of an advanced pharmaceutical delivery technology, MuscleMeds scientists have created a superior glutamine with enhanced absorption and bio-availability.*

What GLUTAMINE DECANATE Does For Athletes!*

Glutamine is one of the most abundant amino acids found in skeletal muscles and throughout the body, dominating the amino acid metabolic pool. Glutamine supplies the metabolic building blocks for creating other amino acids, protein, nucleotides used to make DNA and RNA, and is even involved in energy production. This makes glutamine involved directly in muscle cell growth, protection, fullness and performance. But during prolonged periods of training, glutamine levels typically become depleted faster than the body can replenish them. This is what makes glutamine a conditionally essential amino acid and an important amino acid to supplement to ensure your body is replenished and maintains a positive glutamine balance. Glutamine is also a component of glutathione, one of the body's most important and powerful antioxidants that protects cells and body tissues from free radical damage and breakdown.*

DecaDrive Shifts Glutamine Replenishment Into Overdrive!*

GLUTAMINE DECANATE provides a potent dose of purified, micronized glutamine via the scientifically advanced DecaDrive Technology, which is designed to promote faster absorption and utilization of glutamine. DecaDrive Technology utilizes the pharmaceutical delivery compounds PEG and Decanoate to help to promote increased glutamine absorption and uptake in the intestines. This powerful infusion of **GLUTAMINE DECANATE** delivers maximum anabolic muscle building, anti-catabolic muscle protection and improved recovery.*

PERFORMANCE TECHNOLOGIES

GLUTAMINE DECANATE

PHARMACEUTICAL DELIVERY

DecaDrive™ Technology for Enhanced Absorption*

PROFESSIONAL STRENGTH MICRONIZED L-GLUTAMINE

Increases Muscle Growth & Recovery*

Enhances Protein Synthesis*

Increases Muscle Cell Volumizing*

Dietary Supplement

UNFLAVORED

Net Wt. 10.58 oz. (300g)

DIRECTIONS: Mix one level scoop of **GLUTAMINE DECANATE** with 8 to 10 oz. of water, juice or your favorite sports drink. Take 1 to 2 times daily.

Supplement Facts

Serving Size: 1 Level Scoop (5 g)
Servings Per Container: 60

Amount Per Serving

Glutamine Decanate™ (L-Glutamine, decanoic acid, PEG 8000 and PEG 3350)	5 g**
