

MRM solves the age-old problem of plant sources failing to provide adequate protein intake, and eliminates the need for excessive consumption of vegetables in the diet to achieve adequate intake. We source only the highest quality raw pea and raw brown rice proteins concentrated at low temperatures from **premium whole foods**. This tasty and satisfying whey alternative provides a complete protein source for those with specific body composition goals, those seeking to build or maintain lean muscle, active individuals, or simply those who want to add protein to their diet.**

MRM Veggie Elite™ levels the protein playing field by offering a true plant-based alternative to whey. Our select combination of plant proteins creates a highly viable vegan-friendly blend, that ably delivers all of the essential amino acids necessary to meet human health standards of consumption, with vital branched-chain amino acids (BCAA) to aid muscle growth and exercise recovery.**

MRM Veggie Elite™ adjusts grams of protein per serving by using the True Digestibility Scale of individual proteins to create a clean, plant-based formula to rival whey, then adds **Digest-All™ VP** enzyme blend to further aid digestion and assimilation of plant-based proteins. The pea and brown rice selected for **Veggie Elite™** contain a minimum 80 percent protein content by weight, offering higher digestibility, absorption and retention than whole food combinations - in a **complete plant-based protein formula** that eliminates the need for unnecessary carbohydrates and calories found in whole foods.**

MRM Veggie Elite™ is ideal for anyone, from athletes at any level to those who follow a strict plant-based diet regimen, especially those who are unable to tolerate egg, milk, or soy proteins due to allergies or undesirable gastrointestinal side effects. It may also encourage a healthy, new beginning for those who aspire to the numerous benefits an animal-free protein source affords the daily diet.

Hypo-allergenic, cholesterol-free, milk-free, soy-free and gluten-free, **Veggie Elite™** is also proudly **GMO-free**, and furthers the idea that healthy bodies support a healthy planet.

- **Flavorful whey alternative to support demands of athletic performance****
- **Allergen-free, gluten-free, cholesterol-free**
- **No artificial flavors, colors or sweeteners**
- **Vegan- and Vegetarian-Friendly**
