GNC QUALITY COMMITMENT

For more than 75 years, GNC has been the leader in the development and manufacture of dietary supplements and is committed to producing the most superior products. We use only the highest quality ingredients manufactured under the strictest quality controls. Every raw material used is tested to ensure its purity and potency. Each product is dated and then shipped immediately to our stores to ensure that you are purchasing the freshest supplements available.

GNC GUARANTEE

If you are not 100% completely satisfied, return the unused portion of the product with your receipt to a GNC store within 30 days. Our trained sales staff will either refund your purchase price or, if you prefer, assist you in finding a replacement product to help you LIVE WELL.

No more excuses — GNC Total Lean™ Appetrex Control™ is clinically shown to help control your appetite and reduce calorie intake when you need it most — at the start of your diet.* This multi-action formula combines energizing herbs such as yerba mate extract and black tea with EGCG, a major thermogenic component of green tea that helps support metabolism.* In addition, Appetrex Control supplies chromium that supports your metabolism by assisting insulin and important B vitamins to help your body use glucose more efficiently and

metabolize fats, protein and carbohydrates.* B vitamins also play an essential role in energy production; low energy levels are a key concern among dieters.*

†In a clinical study of 30 healthy adults (who took Appetrex Control one week followed by a placebo one week apart, or vice versa), food intake was reduced by nearly 10% when the subjects took Appetrex Control versus the placebo prior to their first meal at the start of their diet.

To help you manage your weight, we've included an easy-to-follow meal and exercise plan. Created by expert nutritionists and dietitians, this two-week meal plan provides you with 1,500 calories each day and features healthy foods.
