

The Weight Management Protein[†]

Max Muscle brings you **Max Lean Protein**, a totally unique protein product for weight management. This product is designed to provide high quality protein, with vitamins and minerals in a thick "Hunger Satisfying" shake. The Multi-Source protein blend contains whey protein concentrate and whole milk protein to deliver whey fractions that include alpha-lactalbumin, beta-lactoglobulin, glycomacropptides, lactoferrin, immunoglobulins, lactoperoxidase, bovine serum albumin and lysozyme. These valuable fractions support the immune system, assist recovery, and boost essential amino acid content. Recent research indicates that protein is more thermogenic than carbs or fat and that high protein diets support satiety compared to low protein diets. **Max Lean Protein** is more than just a great protein; it also contains Vitamins and Minerals for optimal nutrition and recovery.

The amino acids glycine and glutamine are added for GH support and exercise recovery. In addition there is fiber from cellulose and oat bran to fill you up, satisfy your hunger, and promote gastrointestinal health. We even added fine ground flax seed for essential fatty acids for healthy muscle cells and glowing skin. Combined with a proper diet and exercise routine, **Max Lean Protein** gives you a creamy, thick, satisfying shake to help you achieve your physique goals.[†]

Naturally & Artificially Flavored

- Supports Lean Muscle[†]
- Satisfies Hunger[†]
- Supports Thermogenesis[†]

Dietary Supplement

Net Wt. 3 lbs. (1362g)

DIRECTIONS: As a dietary supplement take 2 scoops 1 - 3 times daily mixed into 1 Cup to 2 Cups (8 - 16 oz) of water, milk, fruit juice, or your favorite beverage. Use a blender, shaker or vigorously spoon stir to mix. Adding ice, whole fruit, frozen yogurt, and/or ice cream makes for a great tasting shake.
