METHYL ARIMATEST™

DUAL ACTION PHARMADYNAMIC TESTOSTERONE TECHNOLOGY

7-Arimatase™: Methylated Anti-Aromatase†

Dihydrotase™: 5 Alpha-Reductase Inhibitor†

SubZorb™ Delivery

CLINICALLY TESTED**

**INCREASES TESTOSTERONE
TO OVER 10,000 pg/mL†**

Dietary Supplement

Formula 1 – 144 Capsules

Formula 2 – 72 SubZorb™ Tablets

FORMULA 1 (DIHYDROTASE)

DIRECTIONS: Take two capsules in the morning and two capsules in the evening with water.

Supplement Facts

Serving Size: 2 Capsules	Servings Per Container: 72
Amount Per Serving	% Daily Value
Dihydrotase™* (astaxanthin from <i>Haematococcus pluvialis</i> , Saw Palmetto berry lipid extract from <i>Serenoa repens</i>)	800 mg *

* Daily value not established.

Other ingredients: Gelatin, microcrystalline cellulose, magnesium stearate, silica, titanium dioxide, Red 40 and Blue 1.

FORMULA 2 (7-ARIMATESE)

DIRECTIONS: SubZorb tablets are designed to be dissolved under your tongue. Place one SubZorb tablet under your tongue and let it dissolve completely, then swallow. For maximum effects take two Formula 2 SubZorb tablets per day: one tablet in the morning and one tablet in the evening.

Supplement Facts

Serving Size: 1 Tablet	Servings Per Container: 72
Amount Per Serving	% Daily Value
7-Arimatase™ Methylated Flavone (as 7-Methoxyflavone)	25 mg *

* Daily value not established.

Other ingredients: SubZorb Technology (mannitol, sorbitol, microcrystalline cellulose and croscopidone), natural flavor, magnesium stearate, Red 40, silica, citric acid, malic acid and sucralose.

NOTE: For maximum efficacy and absorption of the SubZorb™ 7-Arimatase™ tablet, administer Formula 1 capsules before Formula 2 tablets. Do not consume any liquids for at least 10-15 minutes after dosing with Formula 2.

WARNING: Consult with your physician before using this product. Do not take this product if you have a medical condition including, but not limited to, diabetes, heart disease, psychological disorder, prostate hypertrophy or hormonal abnormalities. Consult with your physician if you are taking anti-depressants, MAO inhibitors or other prescription drugs. This product should not be used by women or males under the age of 18. Not intended for use by pregnant or lactating women.

Athletes or anyone else subject to performance enhancement substance testing should consult with their sanctioning organization before use. Use of this product may result in testing positive.

‡ Dihydrotase (MyTosterone, US Patent # 6277417) is supplied by Triarco Industries.

METHYL ARIMATEST™

Methyl ARIMATEST™ represents a new standard in testosterone optimization with an advanced dual action testosterone technology. Methyl ARIMATEST is the first testosterone optimizer of its kind to provide powerful clinically tested testosterone elevations to over 10,000 pg/mL**, utilizing the clinically tested, potent 5 Alpha-reductase inhibitor Dihydrotase™, in combination with the new novel highly bio-available anti-aromatase compound, 7-Arimatase™.†

Methyl ARIMATEST's dual action two formula design is scientifically engineered to address the necessary biochemical pathways to trigger perpetual increases in testosterone production. Formula 1 (Dihydrotase) capsules deliver a full, clinically tested dose of a potent 5 alpha-reductase inhibitor to help prevent testosterone's conversion to DHT. Formula 2 (7-Arimatase) SubZorb™ sub-buccal tablets ensure maximum bio-availability and potency of the powerful anti-aromatase 7-Methoxyflavone to inhibit testosterone's conversion to estrogen.†

When administered together, Methyl ARIMATEST's advanced Dual Action Pharmacodynamic Testosterone Technology shifts the endogenous production of testosterone into overdrive, while stopping its conversion to estrogen and DHT. Methyl ARIMATEST's unique ability to elicit high elevations in testosterone, while simultaneously reducing DHT and estrogen, creates the ideal anabolic hormonal profile for packing on hard, dense muscle mass!†

Put Methyl ARIMATEST to the test and watch your testosterone levels skyrocket through the roof. Harness the muscle-building power of 10,000 pg/mL of testosterone running through your veins!†

** Clinically Tested

The Dihydrotase complex contained in Methyl ARIMATEST was tested in a doctor-controlled clinical study. Researchers reported that human test subjects showed large elevations in testosterone after only two weeks. Average levels of serum total testosterone increased to over an amazing 10,000 pg/mL.

METHYL ARIMATEST™

DUAL ACTION PHARMADYNAMIC TESTOSTERONE TECHNOLOGY

*Methyl ARIMATEST
contains two powerful
formulas to deliver
dynamic results!*

- **Increases Testosterone
to over 10,000 pg/mL****
- **Lowers DHT****
- **Lowers Estrogen****
