

Muscle & Libido Formula†

MMSN brings you a totally unique product designed to boost natural testosterone while blocking unwanted estrogen and increasing endurance and sexual performance. No other formula has the combination of minerals, herbals, and nutrients combined in precise ratios for maximum effect. Testosterone is the holy grail of hormones in the human body responsible for building muscle, stimulating libido, and enhancing athletic performance. **Max Anabol** supports your body's natural production of Luteinizing Hormone (LH), a hormone that tells your body to produce

testosterone from the testes. By stimulating the production of LH, **Max Anabol** helps your body maximize its production of testosterone naturally, without any prohormones. Stress, lack of sleep, aging, and a poor diet negatively affect your testosterone production. Support your workouts and your results with **Max Anabol** the Anabolic Maximizer.†
