

USAGE: Take 1 capsule 1 to 2 times per day or as directed by your qualified healthcare professional.

NOTE: DO NOT use if allergic to shellfish. If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

N-Acetyl Glucosamine is an aminosaccharide, synthesized from glucose and the amino acid L-glutamine, that has been stabilized by complexing it to an acetyl group.

N-Acetyl Glucosamine is the body's precursor to hyaluronic acid, which is part of the synovial fluid that lubricates joints.* N-A-G combines with mucin secreted from goblet cells to form the glycocalyx, a protective layer of glycoproteins and polysaccharides that lines the digestive tract.

N-Acetyl Glucosamine is the versatile form of glucosamine for joint and intestinal tissue.*

Keep out of the reach of children.
