

Made in the USA

CODE 2644 V3

SUGGESTED USAGE: As a dietary supplement, take 1 teaspoon (5 mL) daily in 8 oz. of water or juice.

Shake well before use.

Refrigerate after opening.

Chlorophyll is a green pigment naturally produced by plants and algae and gives them their characteristic green color. Chlorophyll is critical for photosynthesis, the process by which sunlight is converted into chemical energy. Chlorophyll can function as a free radical neutralizer, may help to support the body's detoxification processes and has been traditionally used as an internal deodorizer.* This water-soluble extract is in the form of sodium copper chlorophyllin.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication (especially immunosuppressant medications, warfarin, and estrogens), or have a medical condition (especially if immunocompromised). Keep out of reach of children. When taken orally, chlorophyll may cause diarrhea or green discoloration of urine or feces.

Note: Chlorophyll contains a green pigment that could stain your clothing. Handle with care.

Liquid Chlorophyll

INTERNAL DEODORIZER

Super Concentrated - over 90 servings

- Promotes Cleansing
- Freshens Breath*
- Natural Mint Flavor

Net 16 fl. oz. (473 mL)

A Dietary Supplement

Supplement Facts

Serving Size 1 Teaspoon (5 mL)

Servings Per Container about 95

	Amount Per Serving	% Daily Value
Calories	15	
Total Carbohydrate	4 g	1%*
Copper (from Sodium Copper Chlorophyllin)	4 mg	200%
Sodium (from Sodium Copper Chlorophyllin)	5 mg	< 1%
