

Enhanced Probiotic System™
Jarro-Dophilus

Jarro-Dophilus EPS

Supports intestinal & immune function & health*

USAGE: Take 1 capsule up to 4 times per day with water or juice, preferably on an empty stomach, or as directed by your qualified healthcare professional.

Jarro-Dophilus EPS® is a Stable-Dophilus® probiotic due to its shelf life stability at room temperature and its enteric coating delivery system, which protects the beneficial probiotic strains while in transit through the stomach's acidic environment.* The delivery system ensures that a maximum number of viable cells are delivered into the intestinal tract, where they can fully exert their beneficial effects.* The strains in Jarro-Dophilus EPS® are selected from the following 4 genera:

Lactobacillus, *Bifidobacterium*,
Lactococcus and *Pediococcus*.

Probiotic strains such as *B. longum* BB536, *L. rhamnosus* R0011 and *L. helveticus* R0052 are well characterized and have been shown to have the ability to interact, via multiple mechanisms of action, with the intestinal tract and the microbial ecosystem within it.* These strains have been clinically shown to have a positive influence on the composition of the intestinal microflora, promote intestinal health and support immune response.*

Storage Instructions: Jarro-Dophilus EPS® is room temperature stable and does not require refrigeration. Refrigeration will, however, extend the shelf-life. Avoid temperatures above 77°F (25°C).

Supplement Facts

Serving Size 1 Capsule	Servings Per Container 15	
	Amount Per Serving	% DV
Probiotic Bacteria Blend	5 Billion Viable Cells	†
Composed of the following strains:		
<i>L. rhamnosus</i> R0011	<i>L. helveticus</i> (<i>L. acidophilus</i>) R0052	
<i>Pediococcus acidilactici</i> R1001	<i>L. casei</i> R0215	
<i>B. longum</i> BB536	<i>L. plantarum</i> R1012	
<i>B. breve</i> R0070	<i>Lactococcus lactis</i> ssp. <i>lactis</i> R1058	

† Daily Value not established.

Other Ingredients: Potato starch, magnesium stearate (vegetable source) and vitamin C. Vegetarian capsule consists of hydroxypropylmethylcellulose and an aqueous-based enteric coating.

Contains: Dairy (milk) and soy (in trace amounts).

No wheat, no gluten, no egg, no fish/shellfish, no peanuts/tree nuts.

5 Billion viable cells per capsule at time of consumption, under recommended storage conditions, and within Best Used Before Date.

EnteroGuard® ensures the maximum survival of probiotic bacteria to the small intestines, and hence enhances their effectiveness.
