

Jarro-Dophilus EPS[®]

USAGE: Take 1 capsule per day with water or juice, preferably on an empty stomach, or as directed by your qualified healthcare professional.

Clinically Studied Strains

Studied in human clinical trials: *B. longum* BB536, *L. rhamnosus* R0011 and *L. helveticus* R0052 are well characterized and have been shown to interact via multiple mechanisms of action with the intestinal tract and the microbial ecosystem within it.* These strains have been clinically shown to improve the properties of the intestinal microflora, promote intestinal health and support immune response.*

Shelf Stable at Room Temperature + Enteric Coated

Jarrow Formulas[®] EnteroGuard[®] provides protection against stomach acid to ensure maximal delivery of probiotic bacteria to the small intestines, where they fully exert their beneficial effects.*

Jarro-Dophilus EPS[®] is room temperature stable and does not require refrigeration. Refrigeration will, however, extend the shelf-life. Avoid temperatures above 77°F (25°C).

Packaged for Stability

- Unit sealed in blister packaging.
- Moisture resistant and airtight.

Keep out of the reach of children.
