Lot #: Best Used Before:

30 ml (1 oz) Liquid

SILICON SUPPLEMENT

Supplement Facts

Serving Size 10 Drops
Servings Per Container 60

Amount Per Serving	% DV
Silicon 4 mg *	
(Activated Silicon [®] formula of molecular clusters of stabilized silicic acid)	
Boron (as boron citrate) 0.5 mg *	
Zinc (as zinc citrate) 1 mg 6%	

* Daily Value not established.

Other Ingredients: Deionized water, polyethylene glycol and methyl-sulfonyl-methane (MSM).

Suitable for vegetarians/vegans.

No wheat, no gluten, no soybeans, no dairy, no egg, no fish/shellfish, no peanuts/tree nuts. **Store at or below room temperature.**

Made in the U.S.A.

Beautifies Hair, Skin & Nails*

JarrowSil[®] Activated Silicon improves the strength and elasticity of collagen by stimulating collagen production.* Stronger collagen means healthier, more elastic skin, and fewer and shallower wrinkles.*

The outer shaft of hair is rich in silicon. Adequate silicon helps hair grow thicker and stronger.*

Supplementation with JarrowSil also strengthens weak, brittle nails associated with an inadequate silicon intake.*

Strengthens Bones & Collagen*

Silicon plays an important role in bone calcification, including during the growth of new bone.* Bone building cells (osteoblasts) start by constructing a connective tissue matrix. When this is done, the osteoblasts switch their function and begin to fill in this matrix with minerals. This process requires silicon.*

JarrowSil is an essential partner of calcium for bones and antioxidants for supple and healthy arteries.*

USAGE: Take 10 drops per day; mix into 4 to 8 ounces of water or juice and drink promptly.

WARNING: DO NOT put into the eyes. Follow usage directions only. Do not take this product if you are pregnant or lactating.

JarrowSil[®] is a synergistic formulation of highly bioavailable silicon. A patent pending Activated Silicon[®] formula, JarrowSil contains stabilized molecular clusters of silicic acid, which provide a biologically active form of silicon upon dissolution into liquids.

JarrowSil is manufactured in the USA using the latest technology

for enhanced bioavailability, stability and improved taste. Stabilized silicic acid is converted to highly bioavailable ortho- and disilicic acids upon dissolution in liquids and in the stomach.

KEEP OUT OF THE REACH OF CHILDREN.
