

USAGE: Take 3 tablets per day, preferably one with each meal or as directed by your qualified healthcare professional.

NOTE: If you have a medical condition (especially diabetes or being treated for glucose control), are pregnant, lactating, trying to conceive, under the age of 18, or taking medications (especially for glucose control), consult your healthcare professional before using this product.

Liver Optimizer™ combines herbs and other nutrients known to impact detoxification and overall liver function.* It is especially directed toward Phase 2 enzymes, which assist in the processing and removal of toxins from the body.* Artichoke and milk thistle extracts have been shown to affect bile action and glutathione levels. The sulfur-containing compounds alpha lipoic acid and N-acetyl-L-cysteine (NAC) are also involved in the regulation of glutathione. Additionally, NAC conjugates acetaldehyde, a toxic intermediate of alcohol metabolism. PicroMax® is a proprietary, standardized extract of *Picrorhiza kurroa*, an herb well-regarded in Ayurveda. Sulforaphane glucosinolate, from BroccoMax® (broccoli seed extract), is a precursor to sulforaphane, an inducer of Phase 2 detoxifying enzymes. B complex vitamins are indispensable components of enzymes in the liver.

Keep out of the reach of children
