Supplement Facts

	Amount Per Serving	% DV
Serving Size 1 Tablet		Servings Per Container 60
Glucosamine HCl	525 mg	-
S-Adenosyl Methionine (from 400 mg of SAM-e tosylate disulfate)	200 mg	-
Daily Value not established.		

Other Ingredients: Cellulose, glycerin, behenate, medium chain triglycerides, oleic acid, sodium alginate, titanium dioxide, riboflavin, stearic acid (vegetable source), silicon dioxide, magnesium stearate (vegetable source), dextrin, xanthan gum, and sodium citrate.

Suitable for vegetarians/vegans.

No wheat, no gluten, no soybeans, no dairy, no egg, no fish/shellfish, no peanuts/tree nuts.

This product complies with the proposed USP Monograph for SAM-e.

Natural SAM-e Joint®

Jarrow Formulas® SAM-e Joint® provides a full 200 mg SAM-e (net yield) and 525 mg of glucosamine hydrochloride in every enteric-coated tablet. SAM-e Joint® is manufactured under low temperature and low humidity and is enteric-coated to ensure a biologically active product. SAM-e and glucosamine are known to benefit joint function and recuperation.

Contains More of the Active S,S Form

SAM-e

Found in all living cells, SAM-e is a metabolite of methionine (an essential amino acid). SAM-e is a chiral molecule and consists of two forms: (S,S) SAM-e and (R,S) SAM-e. The biologically active form is the (S,S) structure, while the (R,S) structure is biologically inactive. Jarrow Formulas® SAM-e is made naturally by microbiological fermentation and then specially processed without solvents to preserve 68-80% (S,S) SAM-e, the highest active level available.

Glucosamine

Glucosamine is an aminosaccharide synthesized by transamidase enzymes from glucose and an amine group from glutamine. HCl (hydrochloric acid) stabilizes the glucosamine in this product. Glucosamine is a component of joint and intestinal tissue and is involved in the production of synovial fluid that lubricates the joints.*

SAM-e has been clinically shown to have the following benefits:

Joint Strength*

SAM-e supports the production of healthy connective tissue through transamination.* In this process, critical components of connective tissue, including glucosamine and the chondroitin sulfates, are sulfated by SAM-e metabolites.*

Brain Metabolism*

SAM-e methylation reactions are involved in the synthesis of neurotransmitters such as L-DOPA, dopamine and related hormones, epinephrine and phosphatidylcholine (a component of lecithin).*

Liver*

SAM-e metabolism supports the synthesis of glutathione (GSH) and glutathione-dependent enzymes (glutathione peroxidase and glutathione-S-transferase), which are substances important for liver function, including phase II detoxification.*

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Lot #: Best Used Before:

SAM-e
JOINT®
SAM-e + Glucosamine
FULL POTENCY

USAGE: Take 1 tablet 1 or 2 times per day on an empty stomach or as directed by your qualified healthcare professional.

WARNING: Individuals using prescribed medications such as antidepressants, including Selective Serotonin Re-Uptake Inhibitors (SSRIs) and MAO Inhibitors should consult a physician before using this product. Individuals with Parkinson's disease, bi-polar disorder or manic depression should not use SAM-e. Do not use if pregnant or nursing. Do not exceed recommended intake. May cause gastrointestinal upset in some persons. If you experience discomfort, discontinue use.

Jarrow Formulas® SAM-e Joint® is foil blister-packed to maximize stability and safety. DO NOT use if seal or blister pack is broken.

Full potency 200 mg SAM-e (net yield) is derived from 400 mg of SAM-e tosylate disulfate.

Jarrow Formulas® SAM-e Joint® is Joint Sustain® nutrition, providing glucosamine HCl, a SODIUM FREE form of glucosamine.

For best results, use with Jarrow Formulas® JarrowSil®, the biologically Activated Silicon®.

Store in a cool, dry place.
Keep out of the reach of children.
