

USAGE: Up to age 4, mix 1/4 teaspoon per day in water, juice, lukewarm infant formula or food, or as directed by your qualified healthcare professional. For newborns, mix into formula only 1/16 teaspoon per day for the first week. **DO NOT** feed powder directly to infants or children.

Baby's Jarro-Dophilus® contains superior, scientifically documented strains. Clinical studies have documented the benefits of *B. breve* M-16V and *B. longum* BB536 in infants and young children. GOS (GalactoOligoSaccharides) is similar to the oligosaccharides found in human milk. Both GOS and FOS (FructoOligoSaccharides) enhance the colonization of beneficial intestinal flora, such as Bifidobacteria.* Each gram (approximately 1/4 teaspoon) contains a minimum of 3 billion viable cells when kept refrigerated and within Best Used Before Date.

Keep out of the reach of children.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
