

USAGE: Take 1 capsule per day on an empty stomach or as directed by your qualified healthcare professional.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

GPLC is a propionyl ester of L-carnitine (PLC) that includes a glycine component. Compared with other forms of carnitine, PLC exhibits a special affinity for muscle tissues, including those of the heart and skeletal muscles.* GPLC is a powerful antioxidant that scavenges free radicals – protecting against lipid peroxidation – assists in energy production – contributing to proper carbohydrate metabolism, improved muscle function, and reduced lactic acid buildup during low-oxygen conditions, such as exercise – and provides powerful support for peripheral arterial blood flow.*

AminoCarnitines® such as GlycoCarn®, ArginoCarn® and L-Tauro® are manufactured by Sigma-tau HealthScience under USA production patent # 6703042 and Worldwide production patent EP1202956.

Keep out of the reach of children.
