OUR ECO COMMITMENTS

Long before we started ECOTEAS, we were organic gardeners. For us, organic comes first.

As three best friends working in partnership with small farmers around the world, Fair Trade is just part of who we are.

Nature knows best. We can grow plenty of food without upsetting the balance.

Our love of nature runs deep. Planting native trees is a small gift back to the world.

This box is made from 100% post-consumer recycled paperboard. The "eco-wrappers" that seal each tagless teabag are made from renewable non-GMO wood pulp.

We offset our office electricity usage with green energy from the Bonneville Environmental Foundation (BEF).

For every eight ounces of water used to brew our tea, we work with BEF to restore eight ounces of water to the Klamath River Watershed in southern Oregon.
