GARLIC

PURE DEODORIZED GARLIC
HIGH LEVELS OF ALLICIN & ALLIIN

360 Easy-to-Swallow Capsules

Andrew Lessman's GARLIC is the result of our search for the finest 100% pure deodorized Garlic. It contains all of the natural goodness from whole fresh Garlic without the unpleasant aftertaste, stomach upset or odor. Garlic has been used historically for over 5,000 years and its health benefits have been prized by diverse cultures from around the world. Garlic contains unique sulfur-based compounds that account for its uniquely pungent flavor and odor, as well as its remarkable anti-oxidant power. In addition to its powerful anti-oxidant benefits, Garlic is well established in its role in supporting the health of the heart and cardiovascular system. One cannot avoid considering Garlic when one considers the most important and beneficial foods in the exceptionally healthy Mediterranean Diet. Despite the multitude of benefits achieved by eating an abundance of Garlic daily, most Americans find its odor embarrassing and its pungency difficult on their digestive system. To assure potency, our Garlic is independently assayed and certified to contain the most important and beneficial anti-oxidant constituents of whole fresh Garlic. Our specially processed ultra-concentrated Garlic is certified for optimum levels of Allicin, Alliin, Thiosulfinates, Gamma-glutamylcysteinates and Sulfur. The special deodorized concentrate of Garlic found in this product ensures that you get all the benefits of Garlic without the problems associated with ordinary Garlic products.
