CITRUS COCKTAIL

Energy Supplement

16 fl oz (473 ml)

Stimulant-Free Fat Metabolizer & Energizer

| High Yield Lipothermic Energy Nutrient

C0413-G-31457

WHO WE ARE Universal Nutrition has been providing cutting edge and staple nutritional supplements to bodybuilders and hard training athletes the world over since 1977. As time passes, certain ideals never go out of style. Honesty. Integrity. Respect. These are the values we uphold and are the bedrock upon which we built our business. **WHAT IT IS** As an athlete, you know performance centers on your body's ability to produce energy. And since fat provides the main energy fuel for muscles, tapping into your body's fat stores is critical. That's where carnitine comes in. Carnitine[™] plays a key role in fat oxidation. Carnitine[™] "transports" long chain fatty acids (the highest energy food fuels) across the mitochondrial membrane and into the power plant of the cell for enhanced energy production—without stimulants. Without Carnitine[™], these fats cannot be burned for energy; they are instead stored in the body as fats and triglycerides, the last thing you want in a lean body. We're proud to present Carnitine[™] in a pure liquid form for fast-acting, maximum absorption. Our formula has been formulated to provide these benefits: Boost energy for maximizing performance, and Fat oxidation: converts fat into useable energy. **HOW WE BACK IT UP** What is on the label is in the bottle and what is in the bottle will help you reach your goals. We believe it and proudly stand behind every product we manufacture. Our word is our bond.

Supplement Facts

Serving Size 2 Tablespoons
Servings Per Container ~16

Amount Per Serving		%DV
Calories	24	
Carbohydrates	6g	2%*
Carnitine (as L-carnitine)	1.3g	**

*Percent Daily Values (DV) based on a 2,000 calorie diet.
