

FAST-ACTING
Digests Beans & Other Gas-Forming Foods
Helps Relieve Occasional Gas & Bloating

Do You Have Gas & Bloating?

Does it seem that every time you eat certain foods you get gas and feel bloated? For many people, foods such as beans, vegetables, whole grains and pasta can be hard to digest properly. These foods contain starches and sugars that, if not broken down completely in the intestines, can ferment and may cause gas, bloating or flatulence, especially if your body lacks the enzymes needed to break down these types of food. Taken with meals, **GAS STOP** can help provide the relief you are looking for.*

For Additional Support Try:

LactoseSTOP is an advanced plant enzyme blend with added probiotics to help the body break down and digest dairy foods.*

Dealing with Dairy Foods. Many people have a difficult time digesting dairy foods because their bodies may lack the ability to digest lactose (milk sugar). This may cause gas, bloating, and even occasional cramping and diarrhea.

Ultimate Flora 50 Billion Probiotic

is a high-Bifido, high-potency probiotic with 10 strains of health-promoting bacteria to enhance digestive function.*

The Importance of Probiotics.

Probiotics are the beneficial bacteria that live in the intestines. The high Bifido count in Ultimate Flora 50 Billion specifically targets troublesome digestion and helps relieve occasional gas and bloating.*

Contains no GMOs, yeast, wheat, gluten, salt, sugar, dairy, animal products, binders, fillers, preservatives or artificial ingredients

GAS STOP is an advanced digestive enzyme blend formulated to help break down gas-forming foods.* Its natural ingredients enhance digestion and help relieve occasional gas, bloating and pressure.*

Multi-Enzyme Blend: Alpha galactosidase, phytase, amylase, cellulase, and more help break down the hard-to-digest starches and sugars found in beans, cruciferous vegetables, legumes and grains.*

Fennel Seed: The soothing properties of natural fennel seed relax the digestive tract lining and may help relieve occasional indigestion and reduce flatulence.*
