THE ULTIMATE FLORA ADVANTAGE

Our proprietary blend of unique **GPS Probiotics** (Gastrointestinal Probiotic Strains) naturally occur in your intestinal tract, helping to support:

- **Healthy Digestion***
- **Immune Functions***
- **Regularity***

Bifido GPS probiotic strains: Support a healthy large intestine where elimination occurs.*

Lacto GPS probiotic strains: Target the small intestine where nutrient absorption and healthy digestion occur.*

High Bifido Formula: Ultimate Flora contains billions more Bifido than Lacto cultures. This ratio more closely matches the healthy human digestive tract than either single strain probiotics or probiotics containing more Lactobacillus.*

Why is a high bifido probiotic important?

As we age, our level of Bifido declines. Ultimate Flora ULTRA POTENT contains 60% Bifido to help maintain a healthy digestive environment.*

Bifido Level High Low **Bifido Declines with Age**
