Suggested usage: 1 softgel 1–2 times per day or as directed by a health professional. Keep out of the reach of children.

Omega-3 fatty acids including EPA and DHA help to maintain cardiovascular health, support cognitive health and brain function, reduce serum triglycerides/triacylglycerols and maintain good health.*

The Original Wild Alaskan Salmon Oil

For over 25 years we've been selling our whole and natural wild salmon oil, sourced from the pristine waters of Alaska. 100% sustainably wild-caught, our salmon oil contains all the synergistically active omega fatty acids in a ratio found in free-swimming salmon, as well as the antioxidant astaxanthin and vitamin D — just as nature intended.

Processed immediately after harvest, the oil is made using a chemical-free proprietary extraction method, in a manner very similar to that used for extraction of extra virgin "cold pressed" olive oil. Our method is temperate so that the naturally occurring omegas, astaxanthin and vitamin D are not destroyed as is the case with many other fish oils.

Sophisticated quality control procedures are utilized in every step of our manufacturing process and our facility is strictly enforced by Alaska Department of Fish & Game. Our salmon oil is regularly tested for chemical residue and heavy metals to ensure a safe and pure source of fish oil, free of heavy metals and other contaminants.

Complete Omega 100% Wild Alaskan Salmon Oil Enteripure™ softgels offer targeted delivery using a technology that embeds pure and natural ingredients into the softgel casing to prevent them from breaking down in the stomach, ensuring no fishy aftertaste.

Manufactured by Natural Factors to ensure safety and potency in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

Contains no artificial colors, preservatives, or sweeteners; no dairy, sugar, wheat, gluten, yeast, soy, corn, egg, shellfish, salt, tree nuts, or GMOs. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
