**Daily Value not established

Other Ingredients Cellulose Coating Only

► **Directions** As a dietary supplement, take one (1) capsule daily approximately one hour after eating. Keep out of reach of children. Store in a cool dry place.

► PACran™ provides a unique class of proanthocyanidins that is clinically shown to resist adhesion of unwelcome bacteria in the urinary tract. Good probiotic bacteria dominate the urogenital system by inhibiting pathogenic bacteria. They resist attachment of undesirable bacteria, and/or produce hydrogen peroxide, lactic acid and other natural substances, which retard growth of potentially harmful bacteria. Probiotics plus PACran™ may help maintain healthy urogenital microflora.*

► **Also Available** in Powder, 75 grams (UBP)
