

Discover the *force* of the Whole

Turmeric has been shown to help maintain a healthy inflammation response and is one of the most studied botanicals in modern science.* The full spectrum of beneficial compounds found in Turmeric *Force* is delivered using a supercritical extraction, whole-food approach to herbal supplementation. Turmeric also supports **cardio and liver health**.* Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering super-pure, super-potent herbal extracts.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter delivers the wisdom of *whole food*. Using only natural supercritical CO₂ or traditional techniques of extraction, our *Force* extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
