

Discover the *force* of the Whole

Rhodiola rosea is an exalted herbal stress "adaptogen" that supports stamina, endurance and well-being under conditions of exertion and sleep disruption.* The full spectrum of beneficial compounds found in *Rhodiola Force*® 300 is delivered using a whole-food approach to herbal supplementation. *Rhodiola* modulates physiologic stress reactions by shifting the body's stress response, thereby **uplifting mood**.* Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering super-pure, super-potent herbal extracts.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of **whole food**. Using only natural supercritical CO₂ or traditional techniques of extraction, our *Force* extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
