

Digestive Support*

Probiotic All-Flora® delivers whole-food live probiotics (good bacteria) and prebiotic fiber to help promote digestive system wellness.* Multiple probiotic strains, including revered *Lactobacillus acidophilus*, help broadly support the body's internal microbial balance for digestive tract health.* Probiotic All-Flora's microorganisms are cultured in a non-dairy, organic Soy medium, making this an excellent probiotic choice for people looking for a non-dairy option. Whole-food organic Apples and organic Jerusalem Artichoke Inulin provide prebiotic nourishment to stimulate the growth of live probiotics and enhance their effects. When culturing is complete, the live probiotics and rich whole-food growth medium are freeze-dried to help preserve their potency until consumed.

For optimal effectiveness, this product should be refrigerated after opening and used before the date on bottle.

Caution: As with any dietary or herbal supplement, you should advise your healthcare practitioner of the use of this product. If you are nursing, pregnant, or considering pregnancy, you should consult your healthcare practitioner prior to using this product.
