

PRODUCT BENEFITS: PhysioLogics has combined three premium sources of calcium with a comprehensive blend of vitamins and minerals in OsteoLogic Pro™. The calcium in this exclusive formula promotes a solid foundation for optimal bone health.*

Regular exercise and a healthy diet containing adequate calcium helps maintain good bone health and may reduce the risk of osteoporosis later in life, especially for teens and young adult Caucasian and Asian women. A total daily intake above 2,000 mg is not likely to provide any additional benefits.

Directions: For adults, take two (2) tablets up to three times daily with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.

WARNING: If you are pregnant, nursing or taking any medications, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.
