C-500

ANTIOXIDANT PROTECTION*

with Rose Hips

250 Tablets

A Dietary Supplement
Vegetarian/Vegan

SUGGESTED USAGE: As a dietary supplement, take 1 tablet 1 to 3 times daily, preferably with food.

Vitamin C is an essential nutrient well known for its vital role in immune system function. It is a highly effective antioxidant that can protect the body's structures from oxidative damage generated during normal metabolism. Vitamin C is also necessary for the production of collagen and is therefore important for skin, bone, and joint health. It is also needed for amino acid metabolism and the utilization of many nutrients, such as folic acid and iron. Rose Hips, which are natural sources of ascorbic acid, have been included to complement this formula.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive. Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.
