Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

SUGGESTED USAGE: As a dietary supplement, take 1 tablet daily, preferably with a meal.

Vitamin C is a water soluble nutrient well known for its vital role in the immune system. Vitamin C is also necessary for the production of collagen (a structural protein in connective tissue) and is therefore important for skin, bone, and joint health. Vitamin C is needed for amino acid metabolism and the utilization of many nutrients, such as folic acid and iron. It is also a highly effective antioxidant that can protect the body's cells and molecules from damage by free radicals and reactive oxygen molecules generated during normal metabolism and exposure to environmental stressors. This product was specially formulated to provide a sustained release of Vitamin C and includes Rose Hips as an added source of Vitamin C.*

C-1000

ANTIOXIDANT PROTECTION*

Sustained Release with Rose Hips

250 Tablets

A Dietary Supplement
Vegetarian/Vegan
