

## Total Metabolism Support\*

Supercritical Diet & Energy's natural ingredients work through multiple pathways to help promote optimal energy and weight management, when accompanied by diet and exercise.\* Specific constituents support normal functioning of the hormones that help contribute to fat and cortisol function.\* **Natural antioxidants address the high levels of oxidative stress** commonly found in weight-challenged individuals and **provide detoxification support** should toxins be released from stored fat.\* Thermogenic herbs that enhance metabolism, including organic Green Tea and full-spectrum Ginger, work synergistically to invigorate the body and mind.\* Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering a super-pure, super-potent herbal extract.
