

MT™ THE MOST POWERFUL SUPPLEMENTS ON EARTH.™

At MuscleTech®, our researchers are passionate about supplements. Our mission is to develop the most scientifically advanced and effective supplements to help you build muscle and strength, lose weight, and improve athletic performance. Thanks to our millions of loyal customers, we are fortunate to be the most-awarded and best-selling sports nutrition brand over the past 20 years.

Many supplement companies do not disclose their ingredients, and don't invest in science and research, or quality control. We are different. MuscleTech® invests millions in product research and development, and quality control – and our supplement facts always tell you EXACTLY what you are getting: The Most Powerful Supplements on Earth!

Manufactured according to cGMP standards, which is required for all dietary supplements.

MuscleTech® is the Leader in Science with a Multi-Million Dollar Research Budget –

A portion of every dollar spent on MuscleTech® supplements is allocated toward scientific research to discover new and more effective ways to increase lean muscle and strength, and improve athletic performance. In fact, Team MuscleTech® researchers have collaborated with researchers at over 20 universities and research facilities around the world to study the various key ingredients found in our powerful formulas.

Platinum Fish Oil 4x – Platinum Fish Oil 4x is an extremely potent fish oil. In fact, you'll find an incredible 4 times the omega-3 fatty acids in each soft gel compared to our premium fish oil soft gel. This includes an amazing 736mg of EPA and 380.8mg of DHA (along with other omega-3 fatty acids) in each easy-to-swallow soft gel.

What's more, a 5-step manufacturing process, which includes molecular distillation and super critical purification technology refines the precious oil to remove unwanted impurities such as mercury, cadmium, lead, and PCBs...harmful impurities you may find in other fish oil products. Plus, our super-filtration process and enteric-coated soft gels take away those unwanted fish burps that are so common with lower quality fish oil products.
