

Discover the *force* of the Whole

Cinnamon possesses a unique power amongst botanicals by assisting in the body's conversion of sugar (glucose) into energy. The full spectrum of beneficial compounds found in Cinnamon *Force*® is delivered using a supercritical extraction, whole-food approach to herbal supplementation. Cinnamon *Force* promotes **healthy weight management** by helping glucose create immediate cellular energy instead of stored potential energy in the form of fat deposits.* Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering super-pure, super-potent herbal extracts.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of **whole food**. Using only natural supercritical CO₂ or traditional techniques of extraction, our *Force* extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
