

Discover the *force* of the Whole™

Holy Basil has been long employed by India's Ayurvedic masters to support a positive stress response and healthy mood and spirit.* The full spectrum of beneficial compounds found in Holy Basil *Force*™ is delivered using a supercritical extraction, whole-food approach to herbal supplementation. Researchers have determined that Holy Basil's "active" molecules promote a healthy inflammation response.* These molecules' **cell protective properties** have also been studied for their effect on normal cell growth *in vitro*.* Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering super-pure, super-potent herbal extracts.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of **whole food**. Using only natural supercritical CO₂ or traditional techniques of extraction, our *Force* extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
