

Discover the *force* of the Whole

Grape Seed *Force*® provides a proprietary, concentrated extract that supports your body's natural ability to produce energy, therefore promoting balanced energy and endurance.* The full spectrum of beneficial compounds found in Grape Seed *Force* is delivered using a whole-food approach to herbal supplementation. We use a proprietary process to extract from the seeds of Sauvignon Blanc Grapes that are grown in the Marlborough region of New Zealand. Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering super-pure, super-potent herbal extracts.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of *whole food*. Using only natural supercritical CO₂ or traditional techniques of extraction, our *Force* extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
