

## THE MOST ADVANCED TRIPLE SOURCED CREATINE FORMULA\*

Creatine ATP SX-7™ is the most advanced creatine supplement on the market today. In fact, the dose of creatine you'll find in just two servings helped test subjects gain over 4 times more lean muscle than a placebo. Plus, you can gain strength, increase power, and enhance between-set muscle recovery. This truly is a unique, never-before-seen combination of three advanced types of creatine. Make no mistake, this is not your grandfather's creatine pill! Creatine ATP SX-7™ is the evolution of creatine.▲

### How Does it Work?

Creatine rapidly replenishes the body's ATP levels. Higher ATP levels allow the body to train harder and recover faster during anaerobic exercise. This will allow for bigger and stronger gains.▲

### Three Advanced Creatines Delivered in a Clinically Proven Dose

Creatine ATP SX-7™ is the only advanced formula with tricreatine citrate, creatine Peptide, and creatine HCl. Tri-creatine citrate is a novel form of creatine that has been shown to increase plasma creatine levels. Creatine peptides are made from a proprietary process that binds creatine to peptides isolated from whey using advanced fractionation and separation technologies. Lastly, creatine HCl is a unique form of creatine with a hydrochloride matrix attached to the creatine molecule. This innovative, clean creatine combination was designed to deliver superior recovery between sets and unparalleled strength gains which will help destroy all personal records and training plateaus. Try it today and you'll never want to get off it!▲

### Powerful Dose of elevATP™!

Creatine ATP SX-7™ provides you with a clinically studied dose of elevATP™. This unique, clinically studied combination of ancient fossilized peat minerals and a high polyphenol rich apple extract provides your cells with the edge they need to help you set a new personal best. Researchers believe that elevATP™ increases mitochondrial ATP production to increase muscular energy when the going gets tough. In fact, recently published human clinical research has indicated that elevATP™ can increase blood and muscle ATP levels.▲

90 CAPLETS

DIETARY SUPPLEMENT

## Supplement Facts

Serving Size: 3 Caplets  
Servings Per Container: 30

Amount Per Serving	% Daily Value
Calcium	100mg 10%
Sodium	100mg 4%

### Creatine ATP Xtreme Blend

Creatine HCl	1g †
Creatine peptide	1g †
Whey peptide bound to creatine monohydrate	
Tri-creatine citrate	1g †

### Creatine ATP Uptake Support Matrix

elevATP™ Apple fruit extract	150mg †
(as <i>Malus domestica</i> )	
Supplying ATP (adenosine triphosphate)	

†Daily Value not established.

**Other Ingredients:** Microcrystalline Cellulose, Croscarmellose Sodium, Coating (Titanium Dioxide, Polyethylene Glycol, Talc), Stearic Acid, Magnesium Stearate, Talc.

**Directions:** Take 1 serving (3 caplets) twice daily with water. Do not exceed 1 serving (3 caplets) in a 24-hour period. As with all creatine products, maintain an adequate state of hydration during use. Read the entire label before use and follow directions provided.

**WARNING:** For adult use only. Do not use if pregnant or nursing. Consult a doctor before use if you have a medical condition and before starting a diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

**Do not use if packaging has been tampered with.**  
Store in a cool, dry place (60°F to 80°F).
