

Zinc

IMMUNE SUPPORT

50 mg

Supports Enzyme Functions*

100 Tablets

A Dietary Supplement
Vegetarian/Vegan

SUGGESTED USAGE: As a dietary supplement, take 1 tablet daily with a meal.

Zinc is essential to the normal function of many organs and systems within the body including the skeletal, immune, neurological, and endocrine systems. Zinc is a necessary mineral co-factor for hundreds of enzymatic reactions related to protein and carbohydrate metabolism, RNA/DNA synthesis, and intercellular signaling. It is also known to play a critical role in the body's defense against oxidative processes and is especially helpful for maintenance of healthy aging. Zinc is also beneficial for vegetarians.*
