

PRODUCT BENEFITS: PhysioLogics' Q-Sorb™ Coenzyme Q-10 400 mg softgels provide an essential component of the mitochondrial electron transport chain, vital for the production of adenosine triphosphate (ATP) required for virtually all cellular processes.* Co Q-10 is a lipophilic antioxidant that helps promote metabolic functioning to fight against free radicals and oxidative stress, which is important in cardiovascular and nervous system health.*

Directions: For adults, take one (1) softgel daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
