

SUGGESTED USAGE: As a dietary supplement, take 1 soft-gel 1 to 2 times daily preferably with food, or as directed by your healthcare practitioner.

HOW IT WORKS: Tocotrienols are members of the Vitamin E family with unique biological activities.* Ongoing research indicates that Tocotrienols are powerful free radical scavengers that may help to promote normal arterial function and healthy cholesterol metabolism.* Tocotrienols also support brain and liver health.* Typically, bioavailability of tocotrienols is low. The patented self-emulsifying oral delivery system utilized in this product was developed to overcome the poor absorption of Tocotrienols, enhancing bioavailability up to 300%.*

CAUTIONS/INTERACTIONS: If you are taking anti-coagulant or anti-platelet medications, or have a bleeding disorder, consult your healthcare practitioner before taking this product.

This bottle contains an AGELESS® Oxygen Absorber to ensure freshness. Do not eat packet.

Not manufactured with yeast, wheat, gluten, soy, milk, egg, fish, shellfish or tree nut ingredients. Produced in a GMP facility that processes other ingredients containing these allergens.
