Store in a dry place at 59° - 86°F (15° - 30°C).
Manufactured in a GMP and Kosher Facility

Contains no yeast, wheat, gluten, salt, sugar, dairy, animal products, binders, fillers or artificial ingredients

Advanced Support for Optimal Liver Health

Critical Liver Support™ is a maximum-strength natural liver support formula that combines silymarin-rich milk thistle and amino acids with potent nutraceuticals to help maintain, nourish and assist the liver in its role as the body's primary detoxification organ.*

The Importance of a Healthy Liver

The liver plays a major role in many important bodily functions, including digestion, detoxification, metabolism and hormone production. It is responsible for processing and filtering out bacteria and toxins from the bloodstream, as well as transporting waste to the kidneys and colon for elimination. A properly functioning liver is vital to overall health.*

Because everyday factors such as exposure to environmental pollutants, poor diet, smoking, alcohol and the use of certain medications can put added strain on a healthy liver, the use of a natural liver support formula is recommended to keep the liver functioning in peak condition.*

Dietary Supplement
90 Vegetable Capsules

Benefits of 80% Silymarin Milk Thistle

Silymarin is an antioxidant-rich flavonoid contained in milk thistle that helps protect the cells of the liver by strengthening cell walls and helping to block the entrance of toxins.* Its powerful rejuvenating properties stimulate the growth of healthy liver cells and help restore healthy liver function.*

For optimal liver support, recent studies suggest the use of at least 420 mg of silymarin per day.* The unique milk thistle extract in **Critical Liver Support** contains 80% silymarin (480 mg).

N-acetyl Cysteine and Liver Health

The amino acid N-acetyl Cysteine (NAC) assists with the production of glutathione, a powerful antioxidant that supports the natural detoxification functions of the liver. The proprietary amino acid complex in **Critical Liver Support** combines NAC and six additional amino acids for comprehensive, deep liver support.*
