One in Three Adults Has A Cardiovascular Disease

Coronary heart disease accounts for more deaths than any other disease or group of diseases. High cholesterol is a major risk factor in the development of coronary heart disease.

A Unique Approach to Optimal Heart and Vascular Health

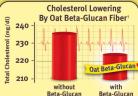

LOVE YOUR HEART targets 'bad' cholesterol levels, a prime risk factor in determining cardiovascular health. while supporting heart energy levels and blood flow essential to well-being.

Key ingredients:

- ▼ Beta-Glucan is a heart-healthy soluble fiber from oats.[†]
- L-Carnitine has been called the energy nutrient. The heart is the body's most active muscle and high levels of this amino acid are thought to be beneficial in supporting a healthy heartbeat.*
- ♥ CoQ10 is a vitamin-like antioxidant vital to the generation of energy in all cells. CoO10 levels decrease with age and have been found to be low in certain individuals with heart conditions.*
- Hawthorn is a powerful targeted antioxidant herb that helps protect blood vessels and healthy heart function.*
- ♥ Policosanol is a natural plant extract studied for its support of healthy liver function.* The liver is the key cholesterol production center.

This statement has not been evaluated by the Food and Drug Administration.

20 Times More Heart-Healthy Beta-Glucan Than Oatmeal!

Love Your HEART features BG-70, a super concentrated form of beta-glucan with 20 times more heart-health support than typical oatmeal

[†]Although many factors contribute to heart disease. 3g or more per day of beta-glucan soluble fiber from whole oats, as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. A serving of this product contains 750 mg of beta-glucan soluble fiber.
