

Get to the Heart of the Matter with CoQ10!

Coenzyme Q10 (CoQ10) is a key component of the mitochondria—the energy-producing units of the cells in your body. Since your heart cells can't function without energy, they can't function without CoQ10. As you age, your body's natural production of CoQ10 declines, making CoQ10 supplementation even more important.

Clinically-proven CoQ10 is essential to:

- Heart and cardiovascular health*
- Energy production*
- Providing heart-protecting antioxidant power*
- Replenishing the CoQ10 that naturally diminishes with age*

KANEKA **Q10**™ is a trademark of Kaneka Corporation.
