

PRODUCT BENEFITS: Coenzyme Q-10 is naturally found in the mitochondria in every cell in the human body and is essential for production of ATP, the cellular source of energy.* In addition, Co Q-10 plays an important role in supporting the cardiovascular system and is a lipid-soluble antioxidant that helps fight cell-damaging free radicals in the body.* Free radicals can contribute to oxidative stress, which may in turn contribute to the premature aging of cells.*

Directions: For adults, take one (1) softgel daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
