

PGX[®]
DAILY

PGX[®] (PolyGlycopleX[®]) is a novel complex of water-soluble polysaccharides (plant fibers). It was developed after many years of research, most of which focused on the link between blood sugar levels, appetite and weight gain. PGX[®] safely and effectively supports healthy blood sugar levels within normal ranges, reduces appetite and supports weight management.*

The most important advantage of PGX[®] over other soluble fiber products is that significantly less PGX[®] is required to obtain the same important health benefits, including appetite control and reduced food cravings.*

PGX[®] is great with ALL Weight Management Programs
Try other PGX[®] products including PGX[®] Daily Ultra Matrix softgels and SlimStyles[®] PGX[®] Ultra Matrix Plus Soothe Digest[™]. Also try SlimStyles[®] with PGX[®] meal replacement drinks - a blend of PGX[®] and high quality whey protein with added nutrients that when blended with water make a creamy, delicious smoothie! Available in 4 flavors: Double Chocolate, French Vanilla, Very Strawberry and Rich Mocha.

Suggested Usage: Mix 1 packet of PGX[®] granules (2.5 g) into 8 fl. oz. of cold water or juice and stir briskly. Take 1 to 2 times per day or as directed by a health professional. Drink additional water (8 fl. oz.) after ingesting PGX[®]. Use consistently before meals or with healthy snacks to greatly reduce appetite and curb food cravings.*

Serving Option: PGX[®] granules may be added to food such as yogurt, fruit salad, oatmeal or soup. On the go? PGX[®] singles make it easy to take PGX[®] when you are away from home. Be sure to have a few singles on hand at a restaurant, on a plane or at your desk. Wherever you are, singles are a convenient way to add PGX[®] to your daily diet.

Notice: A small percentage of people may initially experience minor digestive changes when taking PGX[®] Daily. Slowly work up to the full dose to give your body time to adjust. It is important to drink adequate amounts of water (12–14 oz.) immediately after taking PGX[®] Daily.

Caution: Consult a health professional prior to use if you are under 18 years of age, pregnant or breastfeeding, or have any health concerns. If you are taking medications, take one hour prior to or two hours after taking PGX[®] Daily. If your goal is to achieve weight loss, or if you are diabetic or on cholesterol lowering medications, consult a qualified health professional prior to use. Keep out of reach of children.

PGX[®] promotes weight loss when combined with a healthy diet and exercise plan.* Results may vary.
